

# REQUIREMENTS FOR ARRIVALS BY AIR

Persons arriving in or returning to Lithuania are required to have the following:

1.

confirmation (received by e-mail) of the completed electronical questionnaire (QR code);

AND

document proving the negative test for COVID-19 (prepared in one of the official languages of the European Union). The test must be taken within 72 hours before the arrival in or return to Lithuania (serological antibody test result is not accepted);

OR

document confirming that a person has recovered from COVID-19 (coronavirus infection) and the diagnosis was confirmed by the positive SARS-Co-V2 PCR or antigen test and that maximum 90 days have passed from the positive test until the return to or arrival in the Republic of Lithuania (documents must be prepared in one of the official languages of the European Union);

OR

document (document issued by a health care facility, a country-specific vaccination certificate or an international vaccination certificate) confirming that a person has gone through the full programme of COVID-19 vaccination with vaccine registered in the European Union Register of Medicinal Products (documents must be prepared in one of the official languages of the European Union).

If a person has the right to the isolation exemptions set out in the Isolation Rules, the list of which can be found on the NPHC website at [npsc.lrv.lt/en/information-on-covid-19/for-arrivals-from-abroad/everything-you-need-to-know-about-isolation/isolation-exemptions](https://npsc.lrv.lt/en/information-on-covid-19/for-arrivals-from-abroad/everything-you-need-to-know-about-isolation/isolation-exemptions), it is required to present the documents proving this. If the person is not able to present these documents at the airport or seaport, they can be submitted by e-mail: [izoliacija@npsc.lt](mailto:izoliacija@npsc.lt). Confirmation of the applied exemption will be sent via e-mail. Until the confirmation is received, persons shall be considered as isolated persons. If the documents are presented at an airport or seaport, the isolation exemption shall apply immediately.

Documents proving that a person has recovered from COVID-19 do not need to be presented if the disease has been diagnosed in Lithuania and the data are provided in the information system.

2.

Self-isolation of 10 days from the day of return to or arrival in the Republic of Lithuania is mandatory for all arriving or returning persons (irrespective of the test result). There is a possibility of shortening the self-isolation by taking a coronavirus test (PCR), at personal expense, on the 7th day of self-isolation at the earliest, with a negative result thereof.

3.

If a person is entitled to isolation exemption, supporting documents may be requested during the inspection.

4.

Administrative liability may be applied in accordance with Article 45(4) of the Code of Administrative Offenses of the Republic of Lithuania for provision of incorrect or incomplete information and violations of other legal acts in the field of public health or the Law on the Prevention and Control of Communicable Diseases of the Republic of Lithuania and a fine of EUR 500 to EUR 1,500 may be imposed.

*The information has been prepared in accordance with the Orders of the Minister of Health and with the Decisions of the Minister of Health- State-level Emergency Operations Manager valid on 15 March 2021.*
